September 14, 1976

Dear Vernon:

✓  
 Thank you for your letter of September 9th and for the copy of your keynote address which we have read with deep interest. Immediately following the Trustees meeting, I met with the officers and reviewed with them the items, questions and concerns which were raised during the course of the meeting. Perhaps top priority was given to questions concerning the problem of youth unemployment. We have asked a small group of officers to proceed immediately to consult with experts, to bring together relevant information and to prepare a short report for the December Board meeting.

I know that during the course of the next few weeks, these officers will be in touch with you and will hope to draw on your views and ideas and those of your staff in preparing the report. We would hope to focus on some of the root causes of the problem, to give attention to some of the major programs or attempts to solve unemployment problems as well as to note briefly some of the major courses of action which might be recommended.

Very best wishes,

Sincerely yours,

*recd*
