Dear Dr. Stevens

The Executive Board of the American Library Association at its meeting last week gave its approval to the project for a demonstration of American microphotography at the Paris Exposition next summer. The Board's action authorizes joint sponsorship of the project by the A.L.A. and the American Committee on Intellectual Cooperation or single sponsorship by either.

Dr. Raney this morning says that he would prefer to await further advice from Paris before suggesting which arrangement with respect to sponsors appears to promise best results.

Cordially yours
