My dear Dr. Gregg:

We very definitely like the Preface and very much want to use it, practically as it stands. It is handsome of you to have done it. We are touched by the kindly wish which you extend for the success of our product.

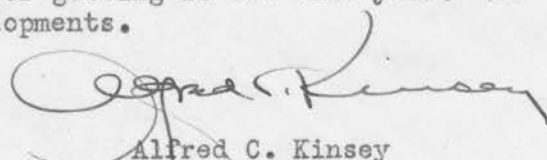

I have made three or four minor corrections which are indicated on the sheet that I return to you. We have made a copy of the Preface, and you will not need to return your original sheet if you will let us know that it meets your approval with the corrections, or in any other form that you prefer.

If you knew how far back we began to hope that you would write this Preface, you ~~would~~ understand that this is a day of considerable importance to us, now that you have done it.

Thanks for forwarding the letter from Mr. Hoeppli. I am still not clear whether we stand a chance of getting a copy; I should hope so. In any event, we should be able to find it in some of the other libraries some day.

Our attorney is finally home from the Legislature and is working on our papers for incorporation now. I hope this can be accomplished in the next few weeks.

You will be glad that the book is moving along more rapidly now and we still have expectations of getting it out this year. We will keep you informed of developments.

  
Alfred C. Kinsey  
Professor of Zoology
