NATIONAL RESEARCH COUNCIL
ACTING AS THE
DEPARTMENT OF SCIENCE AND RESEARCH
OF THE
COUNCIL OF NATIONAL DEFENSE

WASHINGTON OFFICE
1023 SIXTEENTH STREET

Washington, D. C.,
June 13, 1918.

Dr. George E. Vincent,
President, Rockefeller Foundation,
61 Broadway,
New York City.

My dear Doctor Vincent:

At the request of Dr. Hale, who recently left for California, I am transmitting to you for the consideration of the Executive Committee of the Rockefeller Foundation a proposal for the endowment of research in physics and chemistry. The project involved has been discussed very fully by Dr. Hale, Colonel Millikan, and myself, and the description of it has been prepared by us jointly. It has been submitted to the Executive Board of the National Research Council, and after some minor modifications received its unanimous approval.

Dr. Hale wished me to express the hope that it might be considered at the next meeting of the Executive Committee, in order that if it should meet with their approval steps might be taken towards a further study of the project.

Colonel Millikan and I will be glad to have a conference with you in regard to the matter in New York if you should desire it.

Yours very sincerely,

Dr. Arthur A. Noyes.
Acting Chairman.

Enclosure.
