Miss Mary Beard,  
The Rockefeller Foundation,  
61 Broadway,  
New York, N. Y.

Dear Miss Beard:-

So many good things are happening to us that I think all the good fairies must have been at the christening party. And now Mr. Beal's letter has come to Dr. Mouré, the Bursar, authorising the expenditure on the laboratory. I cannot tell you how pleased we are about this for it completes a rather perfect little teaching unit, consisting of demonstration room, (i.e. for practical nursing) work room, lecture room, laboratory and library.

After receiving Dr. Sawyer's letter of May 24th., we asked the Board of Governors of the University of Toronto, to forward to Dr. Sawyer a request for the transfer of \$1,000. from Maintenance to Furnishings to permit the expenditure of this sum upon the laboratory. The request was made and Mr. Beal's letter of the 16th., to Dr. Mouré approves this transfer. We are very grateful to you all for this kindly consideration.

So much has been done in and about the School since you were here six weeks ago that already I want you to see it again. I am enclosing a summer picture which shows you what the place looks like now.

→ not rec'd files

The best news of all is that exceedingly good applications are coming in. It seems we shall have no difficulty about enrolment: in fact the difficulty now is in making the selection. Apparently it is (as you have thought) that there are young people and parents who are wanting this kind of a Nursing School. I had not thought that our people were yet quite ready for it and, as you know, I had expected that we might have difficulty about getting a class.

With kind regards,

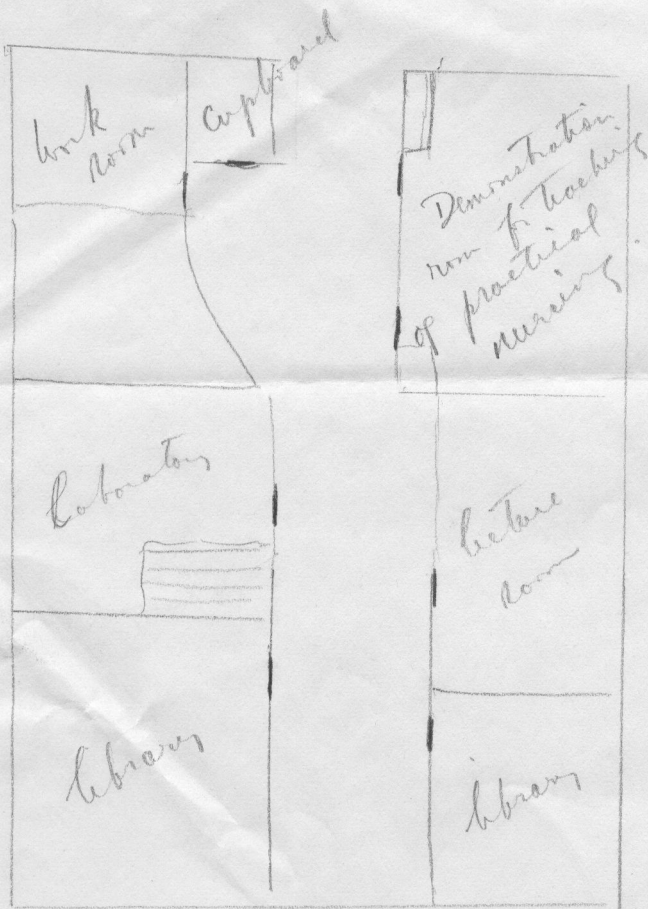

Yours very truly,

Elizabeth Russell

Director.
