Agricola Village,

East Bank, Demerara,

14th June, 1914.

*British Guiana*

To the Hon'ble

The Government Secretary.

Sir,

I beg respectfully to forward you, for His Excellency's information, a copy of a Resolution passed unanimously by a representative gathering of residents of the East Bank Demerara, expressing their thanks to the Rockefeller Health Commission of the United States of America, for their endeavour to wipe out Ankylostomiasis from among them, and also pledging their support in the Campaign.

Dr Howard, the local representative, has kindly consented to convey this expression of gratitude to America, and a copy has been framed and handed to him for transmission.

Residents here trust that His Excellency will be pleased to give his approval to this movement by a section of people under his Government.

I have, etc.,

(Sd) Ed. Millington.

C. Clementi Esquire,

Government Secretary.
