Enemy alien study

November 26, 1943.

Dear Dorothy Thomast

I read of a lot of "goings on" in the Japanese camps, some reported from inside and some from outside. Is it possible to describe the essence of the situation in a short letter? If you have the time and the inclination to share any picture of the situation, - and also any light on the degree to which this is affecting your own study, - we would be most interested to have it. But if you are too busy and do not care to put the matter down, I will thoroughly understand.

Sincerely yours,

JOSEPH H. WILLITS
