Dear Dorothy Thomas:

I have read and reread your two letters. The more I read them the more depressed I become. If these were isolated instances of our failure in problems of human adjustment, one could lay them up to the war psychology toward aliens, but one sees it more and more and more. I need you to sit down and tell me causes and constructive steps.

All this is just another way of telling you again how grateful I am for your letters.

Sincerely,

JOSEPH H. WILLITS
