Peiping, China.

Dear Sirs:

There is being enclosed three autographed pictures from General Yeh Chien-yin as a souvenir of your recent visit to Peiping and Kalgan.

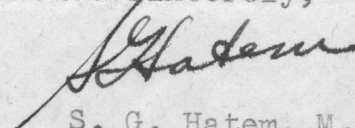

Further he wishes to present all of you with a native hand-woven rug, a produce of Yen-an, China as a token of of remembrance after your visit to the Communist-led Liberated Area and Kalgan. He hopes that you will accept this.

On my own behalf I wish to thank you for all your efforts in studying the medical situation in China, especially in regard to medical education and your contribution of suggestive stimulating ideas on the subject.

I hope that you will see fit to help all medical education in China regardless of political aspects so that in some small way we all may contribute to helping China and cementing a friendship between the American and Chinese people.

I wish you success in your work and a pleasant journey. General Yeh wishes me also to convey his best regards.

Yours sincerely,

S. G. Hatem, M. D.
Adviser (Medical) IPHs
