Dear Dr. Gregg:

You may remember that at the time of our conversation in New York you had in mind to visit Montreal in the autumn. I have to make a short trip to visit my mother in California sometime in the next few months and if you will tell me the probable time of your arrival I will arrange to be there at that time.

There is something of a movement on foot at McGill to expand the work in Neurology. I hope you will be able to come up and tell us what you think of the situation and whether the Foundation is likely to care to help with it.

I am just returning from the Congress of Neurology at Berne. It was quite a success.

Yours very sincerely

Hilder Penfield.
