MAY 23 1949

SUBJECT: Letter of April 2, 1949, from Professor Alfred C. Kinsey to AG

With reference to the Kinsey letter attached, this letter straightens the matter out in my mind, and I am perfectly willing to go along with \$40,000 or \$50,000 per annum and to give it a three-or five-year basis if, in your judgment, this is warranted. In view of the fact that other books and royalties will be coming along later, we perhaps should not let ourselves in for too long a period without review. However, I regard this work as so important and ultimately valuable in so many different ways that I would be willing to continue substantial support, provided only that Kinsey is also using his royalty money for the same purpose.

EWB.
