May second
[1925]

My dear Dr Davis:

My Secretary sent
me a note stating that
you had sent us a
generous check for five
thousand dollars!

I can not tell you what
this means to the whole
Birth Control Movement.

We were desperately in
need, and had so drained
our friends, husbands, &
steady contributors that
we scarcely knew where to turn

My Secretary did not say
if your letter stated that
the contribution was from
the same source as the
previous help given for
the research work, or if
it is to be used for
a special purpose.

I shall be back in
the office the end of
next week & shall have
a quarterly report of the
Clinic sent you.

May I express to you again
my deepest appreciation for
this timely & generous response

May I also assure the
kind Contributor that Every
Cent ^{given us} is carefully spent
with the idea of a hundred
percent returns.

Sincerely yours
Margaret Sauger.
