

Dr. Flexner stated that Dr. Alexis Carrel had recently returned to France where he was undertaking, in connection with the hospital at Compiègne, special work in the treatment of abdominal wounds and hemorrhages -- work which was supported by appropriation from the Foundation. He reported that a cable had just been received from Dr. Carrel stating that the Compiègne hospital had had to be abandoned and that only a part of the equipment had been saved, and estimating that at least Six thousand dollars would be required for equipping a surgical ambulance which might be maintained at about the same rate as that which the Institute had been paying on Foundation appropriation for the Compiègne hospital.

Whereupon it was, on motion,

RESOLVED that the sum of Ten thousand dollars (\$10,000.00), in R.F.2327 addition to the amount already provided under R.F. 2300,

be, and it is hereby, appropriated, of which so much as may be necessary shall be paid to the ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH for war research and relief during 1918, it being understood that the additional grant is to be used in connection with equipping a surgical ambulance for the treatment of abdominal wounds and hemorrhages under Dr. Alexis Carrel.
